

ENHANCE ESTATE MANAGEMENT WITH SENTRIGUARD®

Ineffective keyholding arrangements in education estate management can become a significant obstacle to smooth daily operations, particularly in large estates and at campuses with multiple buildings.

SentriGuard offers a secure and efficient solution by storing keys at the point of need. It is a unique key management system featuring **the only commercially graded key safe**, a cloud-based **platform** for access management and auditing, and an **app** that enables approved users to access keys quickly and securely.

A FEW OF THE BENEFITS:

Savings on costs

A secure alternative to digital access control. It does not require lock changes, key replacements or hard wiring and will not charge you for call-outs.

Significant time savings

No need to search for keys or collect them from a central location. Keys are always available for immediate access by assigned individuals.

Detailed access audits

Generate detailed access reports to know who and when accessed keys. Get notified when keys are not returned to a specific key safe.

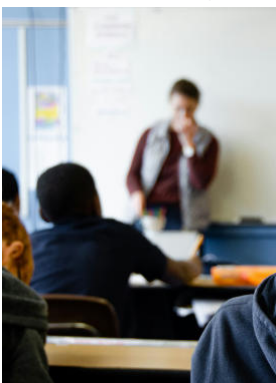

Security & compliance

Unrivalled key safe security. SentiGuard meets the Police Preferred Specification and is a go-to solution to ensure security compliance.

QUICK AND TRACEABLE ACCESS FOR:

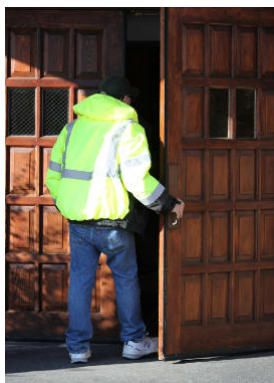

Teaching & admin colleagues

Cleaning & other FM provision

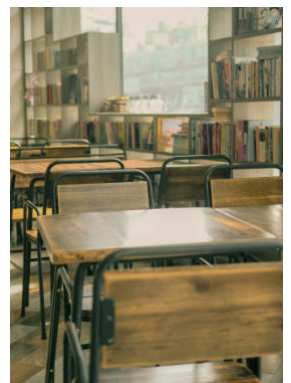

Estate & building maintenance

Evening classes & sports clubs

Access during non-term dates

SENTRIGUARD® FOR SCHOOLS & ACADEMY ESTATES

CLEANING AND FACILITIES MANAGEMENT

Our key management solutions provide secure access to schools for cleaners and other FM providers:

- No need to hand over or collect keys - they are always at the point of need.
- Access is recorded, serving as proof of service delivery
- Users can log visit notes and upload photos via the app, with records accessible on the platform.
- Ideal for reactive maintenance and after-hours visits.

VENUE HIRE

With keys at the point of need, hiring facilities for evening classes, sports clubs and other similar activities becomes much simpler, eliminating the need for direct supervision.

Keys can be accessed via the app or by using temporary, day and time restricted codes, each assigned to a specific individual.

STAFF ACCESS

A group returning from a school trip at 2am? No problem, we've got you covered!

Academic staff requiring access to specific areas during school holidays? We can help with that too.

SentiGuard provides flexibility and saves time - no need for a key holder to attend in any of those instances.

RESTRICTED ROOMS ACCESS

Need to add security to restricted rooms and monitor access?

Sentriguard has the answer.

It will have keys securely stored at point of need for IT suites, server rooms, PE resource rooms, boiler rooms, exam cupboards and other areas.

Grant and revoke access via the cloud based platform and have a complete access audit trail to each key safe.
